

Standard Health Insurance Policy – 5 Lakh Individual Plan

1. Introduction

This Standard Health Insurance Policy (5 Lakh Individual Plan) provides indemnity-based coverage for

hospitalization expenses incurred due to illness, disease, or accidental bodily injury. The policy is governed by the regulations of the Insurance Regulatory and Development Authority and is intended

for retail customers seeking a comprehensive base health cover.

2. Scope of Coverage

The policy covers reasonable and customary charges for inpatient treatment, including but not limited to:

- Room rent, boarding, and nursing expenses up to the limits defined in this document.
- Intensive Care Unit (ICU) and Intensive Cardiac Care Unit (ICCU) charges.
- Fees of medical practitioners, consultants, specialists, and surgeons.
- Anaesthesia, blood, oxygen, operation theatre charges, and diagnostic tests.
- Medical consumables directly related to the treatment.

Pre-hospitalisation expenses up to 30 days and post-hospitalisation expenses up to 60 days from the

date of discharge are also covered, when related to the admissible hospitalization.

3. Sum Insured and Renewal

The base sum insured under this plan is ₹5,00,000 per insured person per policy year. The sum insured is restored at the beginning of each policy year on renewal, subject to the terms and conditions laid out herein. The policy is ordinarily lifelong renewable unless cancelled by the policyholder or terminated as per the provisions in the policy. No loading shall be applied exclusively based on past claims experience during renewal.

4. Waiting Periods

4.1 Initial Waiting Period: A waiting period of 30 days from the inception of the first policy is applicable for all illnesses, except claims arising out of accidental bodily injury.

4.2 Specific Disease Waiting Period: Certain specified conditions such as hernia, cataract, benign prostatic hyperplasia, piles, and sinusitis shall be subject to a waiting period of 12 to 24 months as detailed in the schedule of waiting periods.

4.3 Pre-Existing Diseases: Any pre-existing disease disclosed and accepted at inception shall be covered only after continuous coverage of 48 months under this policy. Pre-existing hypertension,

diabetes, or chronic kidney disease, if any, shall follow the same waiting period unless otherwise specifically endorsed.

5. Exclusions

The policy does not cover expenses related to:

- Treatment arising from or traceable to addiction to alcohol or drugs.
- Cosmetic or plastic surgery unless necessitated by accidental injury or burns.
- Vaccination, inoculation, and immunisation unless forming part of post-bite treatment.
- Convalescence, rest cure, rehabilitation, and admission primarily for diagnostic or evaluative purposes.
- Maternity expenses, childbirth, and complications thereof, unless specifically covered by endorsement.
- Experimental, unproven, or unrecognized treatment modalities not supported by standard medical guidelines.

6. Co-pay and Sub-limits

A mandatory co-payment of 5% shall apply on each and every admissible claim. The co-payment shall be applicable after the application of all sub-limits and deductibles, if any.

Room Rent Sub-limit: Room rent, boarding, and nursing charges are covered up to 1% of the sum insured per day. ICU charges are covered up to 2% of the sum insured per day. Expenses in excess of these limits shall be borne by the insured and may also proportionately reduce other related eligible expenses as per the proportionate deduction clause.

Cataract Sub-limit: In case of cataract surgery, the maximum liability per eye shall not exceed ₹40,000 or 25% of the sum insured, whichever is lower, in a policy year.

7. Claim Process and Documentation

The insured shall intimate the insurer or third-party administrator within 24 hours of emergency hospitalization and at least 48 hours prior in case of planned hospitalization. The following documents shall be submitted for assessment of the claim:

- Duly filled and signed claim form.
- Discharge summary from the hospital.
- Final hospital bill with break-up of charges and payment receipts.
- Investigation reports, prescriptions, and diagnostic test results.
- KYC documents and any other information requested by the insurer.

Failure to furnish documents within the stipulated period may result in delay or repudiation of the claim.

8. Disease Coverage Example – Malaria and Dengue

Hospitalization expenses for febrile illnesses such as malaria and dengue are covered, subject to the general and specific waiting periods and exclusions. Where the policy has been in force beyond the initial 30-day waiting period and no pre-existing condition relating to the illness is identified, admissible expenses related to acute malaria or dengue shall be covered within the sum insured and sub-limits described above.
